\* This course is open for freshman registration.

# WHS Visual Arts Department

2020-2021

The WHS Visual Arts Department offerings are designed to provide an outstanding academic and cultural enrichment curriculum for all students and a more intense course of study for the student considering arts as a career. In meeting the graduation requirement of 5 credits in the arts, students will acquire greater knowledge of our cultural heritage and nurture creative skills and talents. Our program will provide students at Wilmington High School with opportunities to effectively convey ideas and views using their choice of various tools, materials, and media in the area of visual arts. We will encourage an appreciation of the various forms of artistic expression. The Wilmington High School graduate will develop a personal portfolio demonstrating the skills and understanding needed for study in the arts at the college level and career readiness.
